Casper JS

H Hatfield

Tech Team Meeting

4 Jun 2013

Testing is Hard

What's the problem?

What's the problem?

- Is my site reachable?

What's the problem?

- Is my site reachable?
- Does my site work?

What's the problem?

- Is my site reachable?
- Does my site work?
- Does my site work in multiple browsers?

What's the problem?

- Is my site reachable?
- Does my site work?
- Does my site work in multiple browsers?
- Can I simulate the user experience?

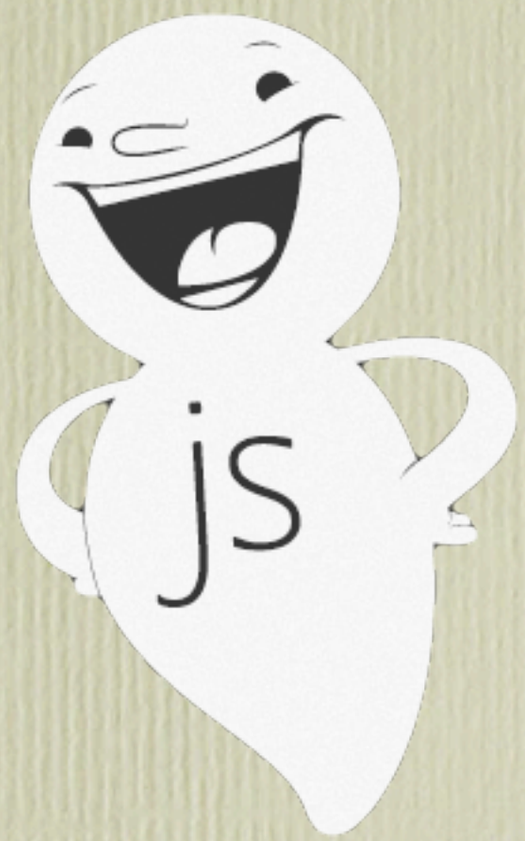
What's the problem?

- Is my site reachable?
- Does my site work?
- Can I simulate the user experience?
- ~~Does my site work in multiple browsers?~~

PhantomJS

- What is Javascript left over after a rewrite that should be safe to remove, but the site can't work without?

PhantomJS



js

Demo
